Education

Texas A&M University–Corpus Christi <i>M.S. in Computer and Information Science</i>	Ongoing United States
Pandit Deendayal Energy University <i>B.Tech in Computer Science & Engineering</i>	Sep 2022 – Jun 2025 CGPA: 7.97/10
Government Polytechnic, Ahmedabad <i>Diploma in Computer Engineering</i>	Aug 2019 – Jun 2022 CGPA: 9.11/10

AI Projects & Experience

Independent AI Solutions Developer	2024 – Present
- Built and shipped multiple AI-powered apps end-to-end – including a conversational assistant (RamayanaGPT), an AI Tutor mobile app (React Native, OpenAI APIs), and a fully automated tech news pipeline (text-to-speech, video rendering) - Integrated LLMs via REST APIs with prompt engineering and iterative evaluation to improve output quality and reliability - Demonstrated projects to non-technical users, gathered feedback, and maintained documentation for long-term handoff	

Professional Experience

Full Stack Web Development Intern – BWS Certifications <i>Software Engineering Intern</i>	Jan 2025 – May 2025 India
- Delivered full-stack features using React.js, Django, Bootstrap, JavaScript, and Python with strong performance feedback - Built REST APIs, integrated backend services with frontend, and collaborated in Agile sprint cycles	
Freelance Full Stack Developer <i>Full Stack Development</i>	Jun 2025 – Nov 2025 Remote
- Developed full-stack applications using React.js, .NET 8, and PostgreSQL, including scalable APIs and auth systems - Managed client requirements directly, translating non-technical needs into working technical solutions	

Other Projects

Campus Ride Pooling Mobile Application	<i>React Native, Firebase, Node.js</i>
Built a full-stack campus ride-sharing app with real-time ride creation, chat, Firebase Auth/Firestore/Cloud Functions, Stripe payments, Stripe Identity, and Mapbox route-aware matching	
Face Recognition Attendance System	<i>Python, FastAPI, OpenCV</i>
Attendance platform using 128-d face embeddings, blink-based liveness detection, JWT auth, RBAC, analytics dashboard, and CSV/XLSX export	
AI-Powered Retail Investor Dashboard	<i>Python, React, SQL</i>
Dashboard combining multiple market-data sources into real-time insights; REST API backend and interactive React visualizations	

Technical Skills

AI / LLM	OpenAI API, Prompt Engineering, RAG, LLM Evaluation, NLP, Workflow Automation, Agent-Based Systems
Languages	Python, C++, Java, JavaScript, TypeScript, C#, SQL, HTML, CSS
Frontend	React.js, React Native, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, Django, FastAPI, .NET 8, REST APIs
Databases	PostgreSQL, MongoDB, Firebase Firestore, SQLite
Cloud / Tools	Firebase, Stripe API, Docker, Mapbox, Git, JWT Auth, CI/CD (GitHub Actions)
